ForMission College's BA undergraduate programme is designed to develop your character, knowledge, and skills for Christian service. You will study the core areas of Biblical Studies (Old and New Testament), Christian Theology, and Practical Ministry. The curriculum equips students with the tools to serve as missional leaders in the context of Central and Eastern Europe.

Our discussion-based teaching approach provides excellent support for your development in local ministry. The European Missional Leadership Pathway combines online learning with in-person retreats, allowing students to remain in their local context while also gaining cross-cultural ministry experience.

This pathway operates through a partnership with Josiah Venture to equip European leaders in ministry.
